## I. Introduction

1 My name is Christopher A. Cooper. I have been retained by Plaintiffs' counsel to analyze data and provide my expert opinion on voter behavior, North Carolina elections, and the demographic and political characteristics of the military and overseas voters challenged by Jefferson Griffin in the 2024 North Carolina Supreme Court election for Seat 6. My analysis is limited to the approximately 5,509 ballots challenged because they were submitted by overseas and military voters in four targeted counties (Buncombe, Durham, Guilford and Forsyth) who are identified as having voted absentee in 2024 without complying with the requirement applied to domestic civilian absentee voters to attach a copy of their photo identification. I also include separate comparisons for the partisanship of challenged voters who reside in Guilford County because of remaining uncertainty over whether Griffin's challenge and the resulting court order is limited to just Guilford County military and overseas voters, or all such voters from all four counties mentioned above.<sup>1</sup> In this report, I call the these affected voters the UMOVA List voters, based on the so-named state law establishing the absentee voting process for military and overseas voters.<sup>2</sup>

## II. Qualifications

2 I am the Robert Lee Madison Distinguished Professor and Director of the Haire Institute of Public Policy at Western Carolina University in Cullowhee, NC, a university where I have worked since 2002. I hold a PhD and MA in Political Science from the University of Tennessee, Knoxville and a BA in Political Science and Sociology from Winthrop University. My academic research focuses American politics with a particular specialty in elections, voter behavior, state politics, and southern politics—often using the case of North Carolina. To date, I have published over 50 peer-reviewed journal articles and scholarly book chapters, have co-edited one book, co-authored another book, and recently authored *The Anatomy of a Purple State: A North Carolina Politics Primer* (all with the University of North Carolina Press). I teach courses on state and local politics, political parties, campaigns, and elections, southern politics, research methods, and election administration. I also serve as co-editor of the *Journal of Election Administration Research and Practice*, am on the editorial

---

<sup>1</sup> For example, Justice Earls, in her dissent in Griffin v. State Board of Elections notes "...these targeted voters are only those who happened to have registered in Guilford County, or maybe one or three of four other counties..." (see p. 8). Later in her dissent, Justice Earls writes, "I do not know, and the court orders do not clarify, which of these counties' voters are affected."

<sup>2</sup> I reserve the ability to supplement this report, including as more information becomes available about this affected group of UMOVA List voters.

board of the *Social Science Journal* and regularly review papers on my areas of expertise for academic journals. In 2013, I was named North Carolina Professor of the Year by the Carnegie Foundation for the Advancement of Teaching and I have received Western Carolina University's highest awards in teaching (Board of Governors Teaching Award) and scholarship (University Scholar).

3 Much of my scholarly research relies on administrative data, particularly voter registration data such as the kind used in this report. For example, my co-authored paper, “the value of voter files for state politics research” (*State Politics and Policy Quarterly*) documented the usefulness of administrative data for the study of state politics. I have also used administrative data such as the kind used in this report in peer-reviewed papers published in *Social Science Quarterly*, *Election Law Journal*, *PS: Political Science and Politics*, and most recently in my book, *Anatomy of a Purple State*.

4 I am a frequent source for journalists seeking expertise on my areas of expertise and have been quoted in outlets such as *The New York Times*, *The Washington Post*, *The Wall Street Journal*, *The New Yorker*, Politico, CNN, Fox News, The *Charlotte Observer*, National Public Radio, Carolina Journal, and the *Asheville Citizen Times*. I have also written over 100 op-eds and short contributions for media outlets including *The News and Observer*, *Time*, *The Asheville Citizen Times*, *The Atlanta-Journal Constitution*, *The Assembly*, the *NC Tribune*, and *The Washington Post*.

5 I have previously testified as an expert witness in North Carolina in *Common Cause v. Lewis* (2019) and *Harper v. Hall* (2021), and submitted an expert declaration in *Urban League v. DeJoy* (2020).

6 My Curriculum Vitae is attached as Exhibit A to this report.

7 I am being compensated at a rate of \$350 per hour for work in this matter. My compensation is not contingent on the results of my analyses, nor on the contents of my report.

### **III. Summary of Findings**

8 The demographic and partisan characteristics of UMOVA voters challenged by Griffin are distinct on a number of indicators from the entire pool of voters who participated in the November 2024 election, and from those who voted early in person or by mail in the November 2024 election. The UMOVA List voters in the four challenged counties (Buncombe, Guilford, Durham, and Forsyth) are significantly more likely to include Democratic voters compared to the voters in the rest of North Carolina’s 96 counties who are not contested. Despite the fact that more Republicans cast a ballot in North Carolina in the 2024 general election than Democrats, Democrats were almost five times more likely to have their ballots challenged than Republicans (4.7 times). Unaffiliated voters were 4.9 times more likely to have their ballots challenged than Republicans, despite the fact that the

Unaffiliated share of the 2024 electorate only surpassed the Republican share by about two percentage points. When examining Guilford County challenges in isolation, the partisan disparities are also evident—Democrats in Guilford County are much more likely to have their votes challenged than Republicans. Moreover, broadly speaking, challenged voters are younger, more likely to identify as a member of a minority group, and much more likely to have unidentified race and ethnicity.

**9** Challenging a targeted subset of voters who do not resemble the overall electorate is a particularly important finding in a state like North Carolina that consistently has close elections and split outcomes. In addition to the Griffin/Riggs contest, there were a number of other close elections in North Carolina in 2024. For example, Democrat Brian Cohen beat Republican Frank Sossman by 228 votes in NC House District 32, Democrat Terence Everitt won by 128 votes in NC Senate District 18, and Republican Tricia Cotham won by 216 votes in NC House District 112. 2024 was not an anomaly, either. In 2020, 401 votes separated the top two candidates for Chief Justice of the North Carolina Supreme Court and in 2016 Democrat Josh Stein won by fewer than 25,000 votes. Close outcomes are the norm in North Carolina.

**10** North Carolinians' penchant for ticket splitting has been noted since at least the mid-1970s<sup>3</sup> and were once again evident in 2024. For example, in the ten-person statewide elected Council of State, Democrats prevailed in five elections (Attorney General, Governor, Lt. Governor, Secretary of State, and Superintendent of Public Instruction) and the Republicans won the other five (Insurance, Agriculture, Auditor, and Treasurer). North Carolina is undoubtedly a purple state<sup>4</sup> and North Carolina voters have come to expect split outcomes and close margins. As a result, even small shifts in whose votes are being challenged can have a large impact.

#### **IV. Data and Methods**

**11** I first obtained the lists of all UMOVA voters challenged from the North Carolina State Board of Elections.<sup>5</sup> I then merged these voters with publicly available data from three sources: (1) the North Carolina Voter Registration file (November 5, 2025 snapshot), (2) the North Carolina

---

<sup>3</sup> Decries, Walter. 1975. "Ticket-Splitting in North Carolina: The 1972 Elections." In *Politics and Policy in North Carolina*, Thad L. Beyle and Merle Black, eds. New York: MSS Information Corporation.

<sup>4</sup> Cooper, Christopher A. 2024. *Anatomy of a Purple State: A North Carolina Politics Primer*. Chapel Hill, NC: University of North Carolina Press.

<sup>5</sup> I requested and obtained the data I examined in this report from the North Carolina State Board of Elections before I was retained as an expert. I routinely obtain voting and administrative data from North Carolina State Board of Elections for my academic studies.

Voter history file and (3) the ENRS file, which keeps more detailed information on mail and early voting, including where mail ballots were sent. All of these files were merged on the “ncid” variable (a unique identifier for each registered voter in the state provided the first time they register). This merge was successful for all but eight of the 5,509 people on the UMOVA List (99.85% match)

**12** I then compared patterns in the group of challenged voters to multiple groups of comparison voters. My analysis of patterns in the UMOVA List compares them to the pool of registered voters, the pool of 2024 voters overall, and the pool of people who cast a mail ballot in the 2024 election (as UMOVA List voters, by definition, did not vote in person). By providing three comparison groups, I am able to determine whether the challenged voters differ from each of these comparison groups. If the comparison reveals consistent deviations in the same direction, it would indicate that the voters challenged are unrepresentative and that certain types of voters are being disproportionately affected by the challenge. The analysis confirmed that this is what happened.

## **V. Analysis**

**13** Griffin is challenging up to 5,509 UOCAVA<sup>6</sup> ballots in four counties—Buncombe (1,095 challenges), Durham (1,991 challenges), Forsyth (1,014 challenges) and Guilford (1,409 challenges).

**14** The counties where voters are challenged for not providing a copy of voter ID make up some of the most Democratic counties in the state. Approximately 92 percent of UMOVA List voters challenged for not providing a copy of their ID when voting, cast their vote using email through the NCSBE portal.<sup>7</sup> The portal has no option to attach a copy of an ID. These four counties are also home to several cities that typically favor Democratic candidates: Asheville (Buncombe), Durham (Durham), Greensboro (Guilford), and Winston-Salem (Forsyth). Durham gave Justice Riggs her 3<sup>rd</sup> highest margin of victory in the state (by total votes), Buncombe her 6<sup>th</sup> largest margin, Forsyth her 7<sup>th</sup>, and Guilford her 4<sup>th</sup> largest margin.<sup>8</sup>

**15** Table 1 compares the UMOVA List voters to the full set of voters in the Seat 6 race in the 2024 election. As Table 1 indicates, Justice Riggs garnered 65.5 percent of the votes in the four

---

<sup>6</sup> The North Carolina State Board of Elections summarizes the statutory definition of UMOVA voters as “active-duty members of the Uniformed Services, Merchant Marine, or commissioned corps of the Public Health Service and the National Oceanic and Atmospheric Administration and their eligible family members; or U.S. citizens living outside the United States.” <https://www.ncsbe.gov/voting/military-and-overseas-voting/faq#WhatistheUOCAVAandwhoiscoveredbyit-2853>.

<sup>7</sup> I arrived at that estimate by comparing the number of accepted ballots cast using email in these counties (using the ballot\_req\_type field in the ENRS file) to the number challenged.

<sup>8</sup> These counties were ranked identically in terms of vote share for Kamala Harris, the Democratic candidate for President.

counties with voters challenged on the UMOVA List—more than 18 percentage points higher than her vote share in the rest of the state. In Guilford County, Riggs' margin was 15 percentage points higher than it was in the rest of the state.

Table 1. The Four Counties with Challenged UMOVA List Voters are Among the Most Democratic in the State.

County	Riggs Votes	Griffin Votes	Riggs Margin	UOCAVA Challenges
Buncombe	99,090	56,470	64%	1,095
Durham	145,399	32,516	82%	1,991
Forsyth	113,896	84,138	58%	1,014
Guilford	172,394	104,676	62%	1,409
Rest of State	2,239,633	2,491,878	47%	0

Notes: Raw data pulled from NCSBE and analyzed by Chris Cooper.

**16** Table 2 demonstrates similar patterns when comparing the UMOVA List voters to all mail voters as well. Approximately 73 percent of mail votes accepted in Buncombe, Durham, Forsyth and Guilford Counties were cast for Justice Riggs; Riggs received 62 percent of the mail votes in the rest of the state. Look at just Guilford County, Riggs received 68 percent of the mail vote compared to 62 percent in the rest of the state.

Table 2. Mail Voters in the Four Counties with Challenged UMOVA List Voters are Among the Most Democratic in the State.

County	Riggs Mail Votes	Griffin Mail Votes	Riggs Mail Vote Margin	UOCAVA Challenges
Buncombe	9,092	2,567	80%	1,095
Durham	8,501	1,568	84%	1,991
Forsyth	7,817	4,148	65%	1,014
Guilford	8,625	4,062	68%	1,409
Rest of State	146,832	90,226	62%	0

Notes: Raw data pulled from NCSBE and analyzed by Chris Cooper.

**17** Challenging almost any sample of voters in these counties would result in challenges of more Riggs than Griffin voters. A straightforward way to demonstrate the unrepresentativeness of the Griffin challenges compared to general pools of voters in North Carolina is simply to compare the party registration of challenged voters to mail voters across the state. At the time of the November 2024 election, voters in North Carolina can register as members of the Democratic, Republican, Libertarian, No Labels, We the People, Justice for All, or Green Parties, or as Unaffiliated.

**18** As Table 3 demonstrates, because of the four counties Griffin targeted, fewer than one in

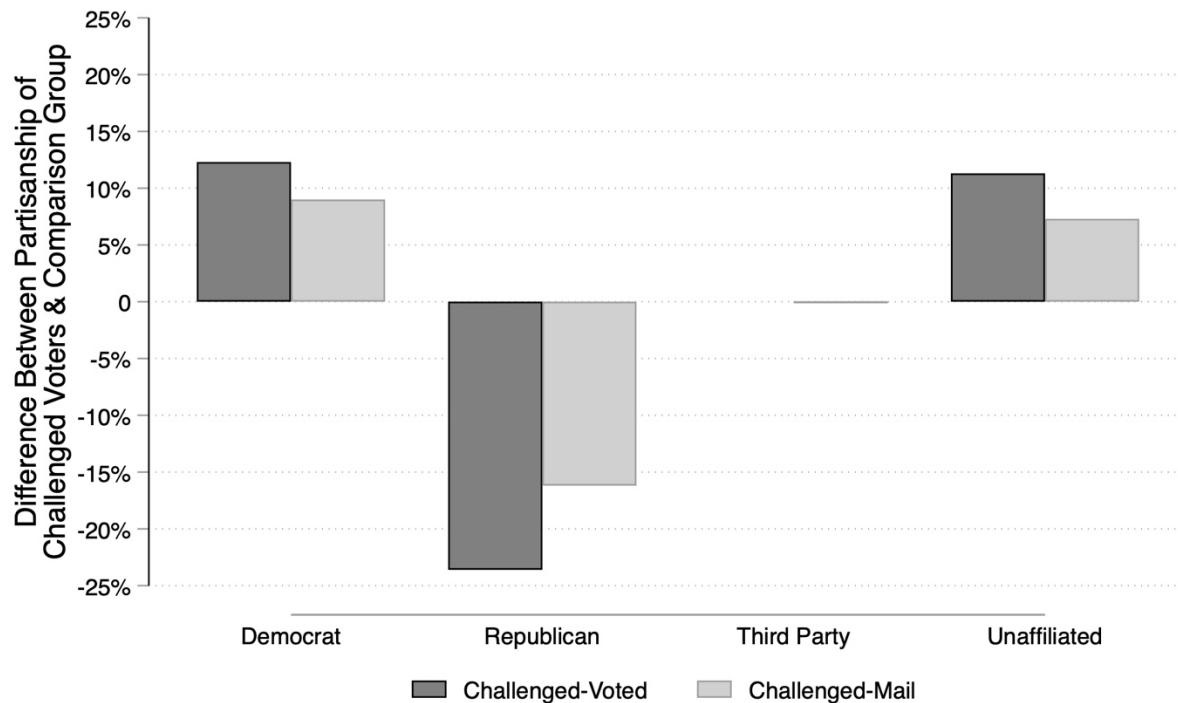

every ten UMOVA ballots challenged were cast by Republicans. In fact, because of the selection of these four counties only, Democrats were 4.7 times more likely to have their ballots challenged than Republicans; Unaffiliated registrants were 4.95 times more likely to have their ballots challenged than Republicans. The pool of overall voters, however, includes more Republicans than Democrats, making this difference particularly stark. Figure 1 shows the information in the last two columns presented graphically.

Table 3. Democratic and Unaffiliated Voters are Overrepresented in the Group of UMOVA List Voters Challenged for Not Supplying a Copy of their IDs With Their Completed Ballot.

	Statewide Registered	Statewide Voted	Statewide Voted by Mail	Challenged	Challenged-Voted	Challenged-Mail
Democrat	31.3%	31.5%	34.8%	43.8%	12.30%	9.0%
Republican	29.9%	32.9%	25.5%	9.3%	-23.60%	-16.2%
Unaffiliated	37.7%	34.8%	38.8%	46.1%	11.30%	7.3%
Third Party	1.1%	0.8%	0.9%	0.8%	0.00%	-0.1%

Notes: Analysis of Challenged voters is derived from the matching procedure described in Section III of this report. Analysis of registered voters relies on the November 5, 2024 voter registration database. Analysis of the universe of November 2024 voters relies on the voter history file and analysis of the mail voter pool relies on the November 2024 ENRS file. Third party includes people registered with the Green, Justice for All, Libertarian, No Labels, and We the People parties.

Figure 1. Republican UMOVA Voters Are Less Likely to Have Their Votes Challenged

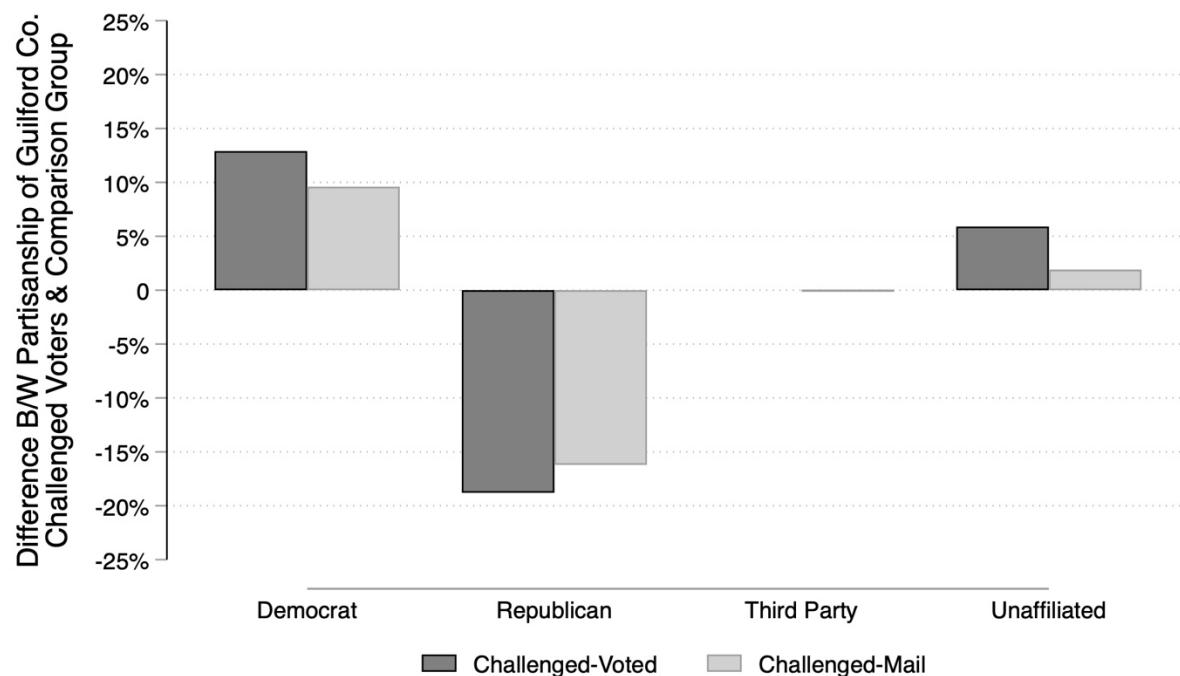

**19** Table 4 and Figure 2 present similar analysis, but only for the UMOVA List voters challenged in Guilford County. As you can see, the overall findings are similar—Guilford County Democrats are much more likely to have their votes challenged than Republicans (~3.1 times), despite the fact that Republicans outnumber Democrats in statewide voter registration and statewide voters in 2024.

Table 4: Democratic and Unaffiliated Voters are Overrepresented in the Group of Guilford County UMOVA List Voters Challenged for Not Supplying a Copy of Their IDs With Their Completed Ballot.

	Statewide Registered	Statewide Voted	Statewide Voted by Mail	Guilford Challenged	Guilford Challenged-Statewide Voted	Guilford Challenged-Statewide Mail
Democrat	31.3%	31.5%	34.8%	44.4%	12.9%	9.6%
Republican	29.9%	32.9%	25.5%	14.1%	-18.8%	-16.2%
Unaffiliated	37.7%	34.8%	38.8%	40.7%	5.9%	1.9%
Third Party	1.1%	0.8%	0.9%	0.8%	0.00%	-0.1%

Notes: Analysis of Challenged voters is derived from the matching procedure described in Section III of this report. Analysis of registered voters relies on the November 5, 2024 voter registration database. Analysis of the universe of November 2024 voters relies on the voter history file and analysis of the mail voter pool relies on the November 2024 ENRS file. Third party includes people registered with the Green, Justice for All, Libertarian, No Labels, and We the People parties.

Figure 2. Guilford Co. Republican UMOVA Voters Are Less Likely to Have Their Votes Challenged

**20** In terms of race and ethnicity, Table 5 reveals that UMOVA List voters with “undesignated” race and “unidentified” ethnicity are much more likely to have their votes challenged and people who identify as White are much less likely to be in the pool of challenged voters than their numbers in the pool of voters would suggest. For example, voters with undesignated race made up 11.3 percent of the people who voted by mail overall in November 2024, but they were 36.2 percent of UMOVA List voters whose ballots were challenged. Voters with unidentified ethnicity made up over half of the pool of challenged UMOVA List voters, compared to about one-third of the voters who cast their vote by mail in November, 2024. It is not surprising to see the large number of people with unidentified race and gender in the challenged pool. There has been a significant rise in the number of people with unidentified race and ethnicity on the North Carolina voter file—particularly amongst young people.<sup>9</sup> White voters, on the other hand, make up 71 percent of the pool of mail voters, 68.4 percent of the pool of 2024 voters and just 50.9 percent of the challenged UMOVA List voters. Similarly, Non-Hispanics are much less likely to have their votes challenged than their proportions in the pool of 2024 voters would suggest.

Table 5: UMOVA List Voters with Undesignated Race Were Much More likely to Have their votes challenged

	Registered	Voted	Voted by Mail	Challenged	Challenged-Voted	Challenged-Mail
<i>Race</i>						
Asian	1.2%	1.3%	2.8%	2.8%	1.50%	0.00%
Black	19.7%	17.9%	10.9%	5.9%	-12.00%	-5.00%
Indian American	.7%	.6%	.3%	.1%	-0.50%	-0.20%
Native Hawaiian	.01%	.01%	.01%	0%	-0.01%	-0.01%
Other	4.0%	3.2%	3.1%	2.9%	-0.30%	-0.20%
2 or More Races	.5%	.4%	.5%	1.4%	1.00%	0.90%
Undesignated	9.6%	7.8%	11.3%	36.2%	28.40%	24.90%
White	63.7%	68.4%	71.0%	50.9%	-17.50%	-20.10%
<i>Ethnicity</i>						
Hispanic	4.2	3.22%	2.6%	2.8%	-0.42%	0.20%
Non-Hispanic	65.9	68.69%	63.8%	46.8%	-21.89%	-17.00%
Unidentified	29.9	28.08%	33.6%	50.4%	22.32%	16.80%

Notes: Analysis of challenged UMOVA List voters is derived from the matching procedure described in Section III of this report. Analysis of registered voters relies on the November 5, 2024 voter registration database. Analysis of the universe of November 2024 voters relies on the voter history file and analysis of the mail voter pool relies on the November 2024 ENRS file.

<sup>9</sup> See Cooper, Christopher A. and J. Michael Bitzer. 2023. “The Curious Case of the Missing Data; Registration Roll-off in North Carolina. Presented at the Annual Meeting of the Election Science Research Association. Athens, GA.

**21** As Table 6 demonstrates, the pool of UMOVA List voters challenged for not providing an ID is much younger than any of the comparison groups. The average age of challenged voters is 41 years old—approximately 10 years younger than the overall population of voters in November 2024 and more than 11 years younger than the average November 2024 mail voter. Table 6 also demonstrates that people 18-25, and 26-40 are all overrepresented in the pool of challenged UMOVA List voters, compared to their representation in the overall voter pool.

Table 6. UMOVA List Voters Are More Likely to Come from Younger Age Cohorts

	Registered	Voted	Mail	Challenged	Challenged-Voted	Challenged-Mail
Avg. Age	48.9	51.4	52.7	41.1	-10.3	-11.5
Age 18-25	13.3%	10.5%	16.7%	22.7%	12.2	6.0
Age 26-40	25.1%	21.2%	19.4%	33.5%	12.3	14.1
Age 41-65	38.6%	42.1%	28.6%	31.3%	-10.8	2.7
Age 66+	22.9%	26.2%	35.3%	12.4%	-13.8	-22.9

Notes: Analysis of challenged UMOVA List voters is derived from the matching procedure described in Section III of this report. Analysis of registered voters relies on the November 5, 2024 voter registration database. Analysis of the universe of November 2024 voters relies on the voter history file and analysis of the mail voter pool relies on the November 2024 ENRS file.

## VI. Summary of Challenged UMOVA List Analysis

**22** My analysis demonstrates that UMOVA List voters challenged for not providing a photocopy of their voter IDs with their absentee ballots are much more likely to be Democrats, less likely to identify as White, and are much younger than the comparison groups of registered voters, people who cast a ballot in 2024 and people who cast a ballot in 2024 by mail. The partisan disparities are not small. Despite the fact that more Republicans cast a ballot in North Carolina in the 2024 general election than Democrats, Democrats were almost five times more likely to have their ballots challenged than Republicans (4.7 times). Unaffiliated voters were 4.9 times more likely to have their ballots challenged than Republicans, despite the fact that the Unaffiliated share of the overall electorate only surpassed the Republican share by about two percentage points.

**23** Overall, I conclude that the selection of the four targeted counties (Buncombe, Guilford, Durham, and Forsyth) has resulted in significantly more Democrats and fewer Republicans being challenged. This conclusion is based on multiple comparison groups. The same finding stands for Guilford County UMOVA List voters considered in isolation.

## TEACHING

### COURSES TAUGHT

#### Undergraduate

Political Parties, Campaigns and Elections

Southern Politics

State and Local Government

Mass Media and American Politics

Political Analysis

Simulation in American Politics

Election 2012

Political Communication in Comparative Perspective (taught at the Middelberg Center for Transatlantic Studies, the Netherlands)

Interdisciplinary Approaches to the Study of Politics

Introduction to American Government

Civic Engagement

British Political Systems (taught in London)

The University Experience

Advanced Writing in Political Science

Public Administration

Internship in Political Science

## Co-op in Political Science

### Graduate

Election Administration  
Research Methods for Public Affairs  
Public Policy Analysis  
State and Local Governance  
Public Affairs Administration  
Metropolitan Government  
Public Affairs Capstone Experience  
Public Affairs Internship

## SERVICE

### SERVICE TO THE PROFESSION

#### *Museum Exhibit Consultant*

NC Democracy: Eleven Elections. Greensboro History Museum, 2021-2022. Exhibit Opened April 2022.
